Dear Prof. Voonthiphon

I have the pleasure to inform you that, at the meeting of the Executive Committee of the International League Against Epilepsy, the Epilepsy Society of Thailand has been provisionally accepted as the Thai Chapter of the ILAE, and will be proposed to the General Assembly in Dublin for final acceptance.

However, some concern was expressed with regard to the fact that, according to your constitution, membership is by cooption. We do hope that this does not signify that the IST sees itself as a closed and exclusive group as we feel that the needs of people with epilepsy are best served when all people in a country who are devoted to the cause of epileptological care join their forces in cooperation.

In case you pay your first annual dues in our treasury before the Dublin, your right to vote in ILAE matters will start there whereas you should receive your free copy of Epilepsia from now on. If this should not happen, please contact the Editor-in-Chief

Please find enclosed, as a personal welcome present for your library, a copy of my book "Seizures and Syndromes" which you may perhaps find useful. ☺

With best regards, and good wishes for your further development,

Sincerely yours
